

## Aerosol filtration research and filter testing with real-time particle measurements

- ▶ Time: 23rd of February, 2021. 13.00 CET (14.00 EET)
- ▶ Duration: 1 hour
- ▶ Topics covered in the webinar
  - Filters and filtration in different applications
  - How to study particle filtration efficiency in a wide size range (6 nm –10 µm), in real-time using only one instrument?
  - Measurements in variable sample conditions and at elevated temperatures
  - Dekati® ELPI®+ for real-time particle size distribution and concentration measurements
- ▶ Joining instructions: The webinar is held on Zoom and it is free for all participants. Advanced registration is required. There are limited amount of spaces available for this event so reserve your space now by following the link below:

### Webinar hosted by

Erkki Lamminen  
Vice President  
Dekati Ltd.

### Who should attend?

Anyone interested in filtration studies and latest advances in particle measurement technology. No previous experience with Dekati® Solutions is needed.
